### **REQUESTOR'S POSITION SUMMARY**

**Requestor's Position Summary Dated August 9, 2007:** "Please find two copies of the documentation related to the request for Medical Dispute Resolution from Vista Hospital of Dallas...The Carrier denied payment with ANSI payment codes "W10" for revenue code 110 and no ANSI payment for all other charge, in regard to its reduction in payment. The Carrier did not request or complete an on-site audit. The Carrier did not make a legal denial of reimbursement because Vista was not provided with a sufficient explanation or the proper denial reasons to justify the denial of reimbursement of the disputed charges. In addition, the Carrier applied the incorrect reimbursement methodology to Vista's charges..."

**Requestor's Supplemental Position Summary Dated November 3, 2011:** "Please allow this letter to serve as a supplemental statement to Vista's originally submitted request for dispute resolution in consideration of the Texas Third Court of Appeals' Final Judgment..."

**Amount in Dispute:** \$35,783.43

### **RESPONDENT'S POSITION SUMMARY**

**Respondent's Position Summary Dated November 30, 2011:** "...Because Requestor has not met its burden of demonstrating unusually extensive services, and the documentation adduced thus far fails to provide any rationale for the Requestor's qualification for payment under the Stop-Loss Exception, Respondent appropriately issued payment per the standard Texas surgical per diem rate. No additional monies are due to the Requestor."

### **FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

## **Background**

1. 28 Texas Administrative Code §133.240, 31 *Texas Register* 3544, effective May 2, 2006, sets out the procedures for medical payments and denials.
2. 28 Texas Administrative Code §133.305 and §133.307, 31 *Texas Register* 10314, applicable to requests filed on or after January 15, 2007, sets out the procedures for resolving medical fee disputes.
3. 28 Texas Administrative Code §134.401, 22 *Texas Register* 6264, effective August 1, 1997, sets out the fee guidelines for inpatient services rendered in an acute care hospital.
4. 28 Texas Administrative Code §134.1, 31 *Texas Register* 3561, effective May 2, 2006, sets out the guidelines for a fair and reasonable amount of reimbursement in the absence of a contract or an applicable division fee guideline.

The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of Benefits (EOB) dated June 13, 2007

- W10 – No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology.
- Z711 – The charge for this procedure exceeds the customary charges by other providers for this service.

## **Issues**

1. Did the respondent provide sufficient explanation for denial of the disputed services?
2. Did the audited charges exceed \$40,000.00?
3. Did the admission in dispute involve unusually extensive services?
4. Did the admission in dispute involve unusually costly services?
5. Is the requestor entitled to additional reimbursement?

## **Findings**

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 Texas Administrative Code §134.401, titled *Acute Care Inpatient Hospital Fee Guideline*, effective August 1, 1997, 22 *Texas Register* 6264. The Third Court of Appeals' November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 *South Western Reporter Third* 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 Texas Administrative Code §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." Both the requestor and respondent in this case were notified via form letter that the mandate for the decision cited above was issued on January 19, 2011. Each was given the opportunity to supplement their original MDR submission, position or response as applicable. The division received supplemental information as noted in the position summaries above. The supplemental information was shared among the parties as appropriate. The documentation filed by the requestor and respondent to date will be considered in determining whether the admission in dispute is eligible for reimbursement under the stop-loss method of payment. Consistent with the Third Court of Appeals' November 13, 2008 opinion, the division will address whether the total audited charges ***in this case*** exceed \$40,000; whether the admission and disputed services ***in this case*** are unusually extensive; and whether the admission and disputed services ***in this case*** are unusually costly. 28 Texas Administrative Code §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold as described in paragraph (6) of this subsection..." 28 Texas Administrative Code §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

1. 28 Texas Administrative Code §133.240(a) and (e), 31 *Texas Register* 3544, effective May 2, 2006 and applicable to the dates of service, state, in pertinent part, that "(a) An insurance carrier shall take final action after conducting bill review on a complete medical bill..." and "(e) The insurance carrier shall send the explanation of benefits in the form and manner prescribed by the Division..." Furthermore, 28 Texas Administrative Code §133.2, 31 *Texas Register* 3544, states, in pertinent part "(4) Final action on a medical bill-- (A) sending a payment that makes the total reimbursement for that bill a fair and reasonable reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement); and/or (B) denying a charge on the medical bill."

The requestor in its position statement asserts that “The Carrier denied payment with ANSI payment codes “W10” for revenue code 110 and no ANSI payment for all other charge, in regard to its reduction in payment. The Carrier did not request or complete an on-site audit. The Carrier did not make a legal denial of reimbursement because Vista was not provided with a sufficient explanation or the proper denial reasons to justify the denial of reimbursement of the disputed charges.

Review of the submitted documentation finds that the explanation of benefits was issued using the division prescribed form TWCC 62 and noted payment exception codes of W10 and Z711.

These payment exception codes and descriptions support an explanation for the reduction of reimbursement based on former 28 Texas Administrative Code §134.401. These reasons support a reduction of the reimbursement amount from the requested stop-loss exception payment reimbursement methodology to the standard per diem methodology amount and provided sufficient explanation to allow the provider to understand the reason(s) for the insurance carrier's action(s) for the services in dispute. The division therefore concludes that the insurance carrier has met the requirements of applicable §133.240, and §133.2.

2. 28 Texas Administrative Code §134.401(c)(6)(A)(i) states “...to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold.” Furthermore, (A) (v) of that same section states “...Audited charges are those charges which remain after a bill review by the insurance carrier has been performed...” Review of the explanations of benefits issued by the carrier finds that the carrier did not deduct any charges in accordance with §134.401(c)(6)(A)(v); therefore the audited charges equal \$49,201.91. The Division concludes that the total audited charges exceed \$40,000.
3. The requestor in its original position statement asserts that “In this instance, the audited charges that remained after the last bill review by the insurance carrier \$42,201.91. Using the Stop Loss Method, the total amount that Vista Hospital of Dallas should have been reimbursed for the services it provided was \$36,901.43. The Carrier made a partial payment of \$1,118.00. Therefore, the Carrier is required to reimburse the remainder of the Workers’ Compensation reimbursement amount of \$35,783.43, plus any and all interest applicable.” As noted above, the Third Court of Appeals’ November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) rendered judgment to the contrary. In its supplemental position statement, the requestor considered the Courts’ final judgment and opined on both rule requirements. In regards to whether the services were unusually extensive, the Third Court of Appeals’ November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must demonstrate that an admission involved unusually extensive services. Rule §134.401(c)(2)(C) allows for payment under the stop-loss exception on a case-by-case basis only if the particular case exceeds the stop-loss threshold as described in paragraph (6). Paragraph (6)(A)(ii) states that “This stop-loss threshold is established to ensure compensation for unusually extensive services required during an admission.” The requestor’s supplemental position statement asserts that:

“The medical records on file with MDR show this admission to be a complex orthopedic surgery which is unusually extensive for at least two reasons; first, this type of surgery is unusually extensive when compared to all surgeries performed on workers’ compensation patients in that only 19% of such surgeries involved operations on the spine; second, this type of surgery requires additional, trained nursing staff and specialized equipment (such as the operating table) thereby making the hospital services unusually extensive. Finally, any evidence of comorbidities, which should be considered, is part of the medical records, which have been previously filed.”

The requestor’s categorization of spinal surgeries presupposes that all spinal surgeries are unusually extensive for the specified reasons. The requestor did not submit documentation to support the reasons asserted, nor did the requestor point to any sources for the information presented. The reasons stated are therefore not demonstrated. Additionally, the requestor’s position that all spinal surgeries are unusually extensive does not satisfy §134.401(c)(2)(C) which requires application of the stop-loss exception on a case-by-case basis. The Third Court of Appeals’ November 13, 2008 opinion affirmed this, stating “The rule further states that independent reimbursement under the Stop-Loss Exception will be ‘allowed on a case-by-case basis.’ *Id.* §134.401(c)(2)(C). This language suggests that the Stop-Loss Exception was meant to apply on a case-by-case basis in relatively few cases.” The requestor’s position that all spine surgeries are unusually extensive fails to meet the requirements of §134.401(c)(2)(C) because the particulars of the services in dispute are not discussed, nor does the requestor demonstrate how the services in dispute were unusually extensive in relation to similar spinal surgery services or admissions. For the reasons stated, the division finds that the requestor failed to demonstrate that the services in dispute were unusually extensive.

4. In regards to whether the services were unusually costly, the Third Court of Appeals’ November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must

demonstrate that an admission involved unusually costly services. 28 Texas Administrative Code §134.401(c)(6) states that “Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to an injured worker.” The requestor’s supplemental position statement asserts that:

“The medical and billing records on file with MDR also show that this admission was unusually costly for two reasons: first the median charge for all workers’ compensation inpatient surgeries is \$23,187; the median charge for workers’ compensation surgeries of this type is \$39,000; therefore, the audited billed charges for this surgery substantially exceed not only the median charges, but also the \$40,000 stop-loss threshold; second, as mentioned in the preceding paragraph, in order for this surgery to be performed, specialized equipment and specially trained, extra nursing staff were required, thereby adding substantially to the cost of the surgery in comparison to other types of surgeries.”

The requestor asserts that because the **billed charges** exceed the stop-loss threshold, the admission in this case is unusually costly. The Division notes that audited charges are addressed as a separate and distinct factor described in 28 Texas Administrative Code §134.401(c)(6)(A)(i). Billed charges for services do not represent the cost of providing those services, and no such relation has been established in the instant case. The requestor fails to demonstrate that the **costs** associated with the services in dispute are unusual when compared to similar spinal surgery services or admissions. For that reason, the division rejects the requestor’s position that the admission is unusually costly based on the mere fact that the billed or audited charges “substantially” exceed \$40,000. The requestor additionally asserts that certain resources that are used for the types of surgeries associated with the admission in dispute (i.e. specialized equipment and specially-trained, extra nursing staff) added substantially to the cost of the admission. The requestor does not list or quantify the costs associated with these resources in relation to the disputed services, nor does the requestor provide documentation to support a reasonable comparison between the resources required for both types of surgeries. Therefore, the requestor fails to demonstrate that the resources used in this particular admission are unusually costly when compared to resources used in other types of surgeries.

5. For the reasons stated above the services in dispute are not eligible for the stop-loss method of reimbursement. Consequently, reimbursement shall be calculated pursuant to 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount* and §134.401(c)(4) titled *Additional Reimbursements*. The division notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the stop-loss threshold described in subsection (c)(6) of this section.
  - Review of the submitted documentation finds that the services provided were surgical; therefore the standard per diem amount of \$1,118.00 per day applies. Division rule at 28 Texas Administrative Code §134.401(c)(3)(ii) states, in pertinent part, that “The applicable Workers’ Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission...” The length of stay was one day. The surgical per diem rate of \$1,118 multiplied by the length of stay of one day results in an allowable amount of \$1,118.00.
  - 28 Texas Admin Code §134.401(c)(4)(C) states “Pharmaceuticals administered during the admission and greater than \$250 charged per dose shall be reimbursed at cost to the hospital plus 10%. Dose is the amount of a drug or other substance to be administered at one time.” A review of the submitted itemized statement finds that the requestor billed three units of Thrombin USP TOP at \$346.60/unit, for a total charge of \$1039.80. The requestor did not submit documentation to support what the cost to the hospital was for Thrombin USP TOP. For that reason, reimbursement for this item cannot be recommended.

The division concludes that the total allowable for this admission is \$1118.00 per diem. The respondent issued payment in the amount of \$1118.00. Based upon the documentation submitted, no additional reimbursement can be recommended.

## **Conclusion**

The submitted documentation does not support the reimbursement amount sought by the requestor. The requestor in this case demonstrated that the audited charges exceed \$40,000, but failed to demonstrate that the disputed inpatient hospital admission involved unusually extensive services, and failed to demonstrate that the services in dispute were unusually costly. Consequently, 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount*, and §134.401(c)(4) titled *Additional Reimbursements* are applied and result in additional reimbursement.

## ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the division has determined that the requestor is entitled to \$0.00 additional reimbursement for the disputed services.
